

FAQ

Q. How long does the APTUS Assessment take?

25-35 minutes.

Q. Do I/we need my/our own iPad(s) or tablet(s)?

No, currently APTUS brings iPads/tablets to your location.

Q. Why should I take the APTUS Assessment?

The APTUS Assessment is a tool used to increase understanding of how one learns. With the information gathered from the APTUS Assessment, APTUS Reports are generated that give detailed insight into how you best learn.

Q. Will my results help my school work?

The APTUS Reports will help you to understand how you best learn, as well as give you strategies to implement into the way you study.

Q. I have a new boss, will my results help me with my work performance and relating to my new boss?

With the APTUS Discovery, bosses as well as parents, teachers and coaches, will have the key to unlocking communication and increasing efficiencies. APTUS Reports reveal insight to you as well as those around you, on how you best Define, Process and Execute.

Q. How long does it take to get my APTUS Reports?

Once all exercises are uploaded (normally within seconds upon completion of The Discovery) APTUS conducts quality controls and we normally provide data within 48-72 hours.

Q. Why doesn't my name appear on my reports?

An APTUS File Number (AFN) is assigned to your data in lieu of your name or email address for confidentiality and privacy purposes.

Q. How many people can take the APTUS Assessment at once?

Ideally, no more than 30.

Q. Does the APTUS Discovery take into account socio-economic factors?

We all learn differently, not right or wrong, just differently. APTUS precludes socio-economic individual biases by not having to ask people their preferences or opinions on how they learn most effectively. Whereas preferences are highly vulnerable to many biases, APTUS measures actual learning as it occurs. The result is an objective, unemotional, unbiased individualized blue-print or path for development.
